WHAT DOES THE FUND INVEST IN?

The Fund invests primarily in shares of well-managed businesses with strong competitive positions that are currently overlooked by the market but have the potential for significant capital appreciation. These businesses can be in Canada, US or in other foreign jurisdictions with a primary emphasis on companies with a market capitalization of less than \$1 billion.

The charts below give you a snapshot of the Fund's investments on April 29, 2016. The Fund's investment portfolio will change from time-to-time.

Top 10 Investments – April 29, 2016

Industrials	6.6%
Energy	5.8%
Consumer Discretionary	5.3%
Diversified Financials	5.1%
Telecommunication Services	3.3%
Cash	7.7%

HOW RISKY IS IT?

The value of the Fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk Rating

Pender has rated the volatility of this Fund as **Medium to High**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

Low	Low to Medium	Medium	Medium to High	High
-----	---------------	--------	-----------------------	------

For more information about the risk rating and specific risks that can affect the Fund's returns, see the section titled "What is a mutual fund and what are the risks of investing in a mutual fund" in the Fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

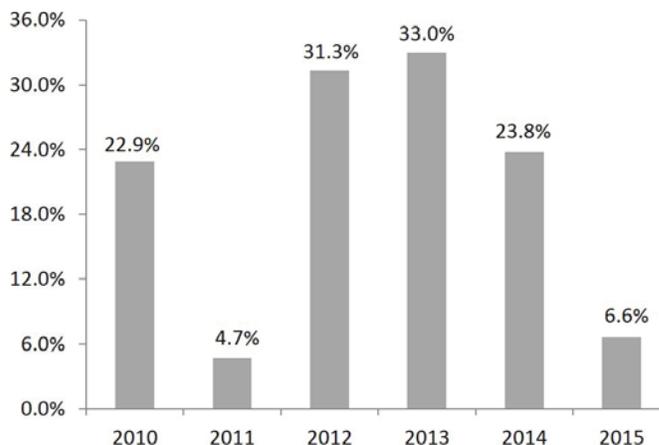

HOW HAS THE FUND PERFORMED?

This section tells you how Class A units of the Fund have performed over the past six years. Returns are after expenses have been deducted. These expenses reduce the Fund's returns.

Year-by-Year returns

This chart shows how Class A units of the Fund have performed in each of the past six years indicated. The Fund has not dropped in value in any of the six years.

The range of returns and change from year to year can help you assess how risky the Fund has been in the past. It does not tell you how the Fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for the Fund in a 3-month period over the past six calendar years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best return	18.9%	February 27, 2015	Your investment would rise to \$1,189
Worst return	-11.0%	August 31, 2015	Your investment would drop to \$890

Average return

A person who invested \$1,000 in the Fund's units on the inception date of June 1, 2009 now has units worth \$3,229 on April 29, 2016. This works out to an annual compounded return of 18.5%.

WHO IS THIS FUND FOR?

You should consider investing in the Fund if:

- You are seeking exposure to small cap equities;
- You are seeking capital growth over the long term; and
- You have an investment horizon with at least three years and are willing to accept moderate to high investment risk.

A WORD ABOUT TAX

In general, you will have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold the Fund in a non-registered account, fund distributions are included in your taxable income, whether you receive them in cash or have them reinvested.

HOW MUCH DOES IT COST?

The following section shows the fees and expenses you could pay to buy, own and sell Class A units of the Fund. The fees and expenses, including any commissions, can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

Sales charges

Your representative is able to charge you up to 5% of the amount you buy (up to \$50.00 on every \$1,000 you buy). You and your representative decide on the rate. This amount is then deducted from the amount you buy and it goes to your representative's firm as a commission.

Fund expenses

You don't pay these expenses directly. They affect you because they reduce the Fund's returns. As of the Management Report of Fund Performance for the period ended December 31, 2015, the Fund's expenses were 2.67% of its value (or \$26.70 for every \$1,000 invested).

	Annual Rate (as a % of the Fund's value)
Management Expense Ratio (MER) This is the total of the Fund's management fee (including the trailing commission) and fixed administration fee.	2.50%
Trading Expense Ratio (TER) These are the Fund's trading costs.	0.17%
Fund Expenses	2.67%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the Fund. It is for the services and advice that your representative and your representative's firm provide to you. Pender pays the trailing commission to your representative's firm. It is paid from the Fund's management fee and is based on the value of your investment.

The trailing commission is equal to 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

Other fees

You may have to pay other fees when you sell or switch units of the Fund:

Fee Type	What You Pay
Short-Term Trading Fee	You may be charged up to 2% of the value of units you sell or switch within 90 days of buying them. This fee goes to the Fund.
Switch Fee	Your representative's firm may charge you up to 2% of the value of units you switch to another class of the Fund or to another fund managed by Pender.

WHAT IF I CHANGE MY MIND?

Under securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual funds within two business days after you receive a simplified prospectus or fund facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, fund facts, annual information form or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

FOR MORE INFORMATION

Contact Pender or your representative for a copy of the Fund's simplified prospectus and other disclosure documents. These documents and the fund facts document make up the Fund's legal documents, which can be found on our website at www.penderfund.com or on the SEDAR website at www.sedar.com.
