Pender Funds are not guaranteed, their values change frequently and past performance may not be repeated. Where the Net Asset Value ("NAV") price or performance of a particular class of a fund is displayed, other classes are available and fees, NAV Price and performance may differ in those other classes. Indicated rates of return are the historical annual compounded total returns including changes in net asset value and assume reinvestment of all distributions and are net of all management and administrative fees, but do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect the future values of the investment fund or returns on investment in the investment fund.
